

Dear Parents,  
Warm Greetings!

We feel extremely privileged to have you as our Parents and the confidence you have bestowed on us in rearing your child in their grooming years as student of our school, gives us a lot of courage to face the pandemic covid-19, the natural disaster of Aamphan and other associated calamities together. While we absolutely and sincerely empathise with the difficulties that parents are going through, we have certain suggestions to make. Number one, bringing the fact from the beginning of lock down, our teaching team and management has tried their best within their wherewithal to roll out online teaching learning for the students. You have also seen gradually it has improved the rigger has increased and we have been able to create a platform on which we can monitor it, as if it is done physically.

You will understand that our school being a private school needs your support, financial support in form of payment of fees without which we won't be able to run our school normally. While we are extremely sincere and also very considerate, that lot of Guardians are going through difficult times, for instance loss of Pay, curtailment of Pay, loss of job, loss of income and various other issues. We will try to accommodate them to the best of our means and ability in form of delayed receipt of Tuition Fee. We have already stated that we are not going to increase any fees in this session 2020-21 over and above what was paid in 2019-20. We have completely stopped collecting Bus Fees because we are not rendering bus service, but you will be happy to note that we are able to make available meaningful sustenance for all our drivers and bus helpers, in spite of not having any income from the transport sector.

Having said all these as above, may we appeal to the Guardians:

- i) Please to the best of your ability; pay the tuition fee as early as possible so that we can remain afloat.
- ii) As we will be trying our best to accommodate the parents, those who have suffered loss of job, loss of pay, curtailment of pay, and delay in payment or otherwise suffered in their income, but we will appeal them to pay as soon as possible.

Also, we have a special appeal to the Guardians particularly those who serve the government sector and the organized sector where there is practically no loss of pay or no delay of payment or no curtailment of payment to please pay on time. It is difficult to appreciate delay of payment from them by taking the alibi of COVID, which has not affected them financially.

Please note that time has come for all of us to roll up our sleeves and do our best to sustain this collectively. You're paying on time will help your child's friend's father to delay a little bit because he is suffering. So our Earnest appeal to those, if you do not have any loss of pay or delay in payment, please pay on time. This is an earnest request and very sincere request a humble request with folded hands.

**\*Please pay all the Due Fees within 17<sup>th</sup> August 2020. Kindly ignore if paid. Contact Office or call at 8584084111/ 9831178486 for further information.\***

Regards and Thank you  
Principal JPS
